

Moral Kinematics Model (MKM)

Distance travelled	Frequency of contact	Duration of contact	Agent moving
--------------------	----------------------	---------------------	--------------

Patient moving	Fireball moving	Collision Agent-Patient	Collision Agent-Fireball
----------------	-----------------	-------------------------	--------------------------

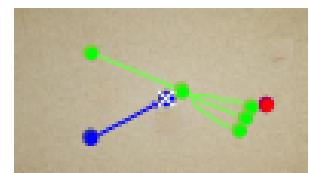

Moral Dynamics Model (MDM)

#### Intuitive Psychology

Action cost → Desire to harm

#### Intuitive Physics

Counterfactual simulation → Cause of harm

Moral Judgment

Moral Judgment
